

Medicaid Care Management A Tool for Making an Informed Decision

Choosing a Managed Care Plan

NH Family Voices has created this worksheet to help you through the process of making an informed decision regarding your health plan selection.

The NH Medicaid Care Management (MCM) program uses three health plans. The health plans cover the same services that NH Medicaid does. The health plans also offer value-added services or extra services and programs, at no cost to you. Extra services vary by health plan. Contact the health plans or visit their websites to learn more.

The tool - Once you have completed the table below, look at your “must keep” column and which Health Plan lists your provider. Think about the providers in the other columns and decide on a plan that best suits your needs.

Considerations:

- ◆ Your providers may have chosen to sign on with all health plans or just one or two. You may want to call your providers and inquire which plans they are in enrolled with or visit the health plan’s website for this information.
 - ◆ Each plan can arrange for you to get help from a care manager who can assist you in maneuvering through Medicaid services.
- ◆ You may not be able to access all of your specialists in one plan, resulting in the need to choose new providers.
